

Deer's Year Book

What a fantastic year we have had in Deer Class. We have been on many exciting adventures together. The Tudor topic and the amazing banquet is still something that the children are talking about. The children looked fantastic all dressed up in their Tudor costumes and even had a chance to meet Henry VIII themselves. He was so impressed that he even knighted each them.

The children made traditional Tudor bread which we had during our banquet.

Tudor House

One of our school trips took us to Tudor House, where we got to dress up in traditional Tudor dress, we learnt a typical dance and got to learn about how Tudor House would have been used in Tudor times.

I loved Tudor House, it was so much fun to see how a Tudors lives were different to ours today. I'm glad I wasn't alive then though it sounds so dangerous compared to now.

(Kornel, Deer Class)

Raging Rivers

During our Raging Rivers topic, we learnt about rivers of the world and how rivers travel. The Children looked at meanders, tributaries, dams, floodplains , mouths and sources and created their own river using sand and stone that were tested using some water.

The children then chose the most successful river system that did what they expected it would and then created an even larger one on the playground.
