

Dragon Visit

Ladybirds class could not decide if dragons were real or not, so we had a debate and put our answers in a voting box. But still we could not decide. Mrs Whittingstall-Bean said she had arranged for some dragons to visit the school and we could decide then. We are so lucky to have dragons and lizards visit our class, can we have one as a pet?

I found out that they shed their skin like snakes do.

I found out reptiles are cold blooded.

It was brilliant; I got to hold a bearded dragon.
