

Bluebirds – Grounds Week

This half term the children travelled into the woods in search of a Bear inspired by 'We're going on a Bear Hunt' by Michael Rosen.

The children were able to re-tell the familiar tale and order the events.

We also went to the woods and around the school in search of ingredients to make our own compost - we had to look for soil, stones and even worms!

The children worked in pairs to gather the ingredients and follow the instructions to make the mini compost pots.

Hopefully we can use our compost to grow some flowers or vegetables this summer!
