

Reptile Centre Visit

As part of the Animal Kingdom topic, the children were able to prepare questions to ask the visitor about the animals that he had brought into school to show. The children also were able to touch the animals, including a tarantula, giant bullfrog, corn snake, royal python, anaconda and black throat monitor lizard.

I liked the lizard because I liked the bumpy skin.

I was scared but I touched the snake.

I liked the visit because they showed us a big snake.

How do snake move?
Who do work as a trapezoid?
The of how job was of muscle
