

# Dinosaur

I loved finding out about fossils. I hope I find some fossils at the beach.

Alice

The hawk's feathers were so soft. It was a bit weird because the bird was dead!

Faye

As part of our **Jurassic Forest** topic we were lucky enough to have the Dinosaur Roadshow in Year 1. We learned lots about dinosaurs and how they are related to the animals we see today. We learned about their size, what they ate and where they lived. We even dressed up as T-Rexes!

# Science Dome

...it felt like the dinosaurs were still alive!

Sienna

It was funny when Archie touched the dinosaur pool!

Harry

We were visited by the **Science Dome**. It was very exciting because we went inside a big, inflatable dome to experience some dazzling dinosaur videos. Then we learned about different dinosaurs and their teeth and where we might find real fossils. Archie even felt some real dinosaur poo!

# World Kitchen...take

The cheese was really stinky but it was really fun to do the dancing with Miss R.

*Poppy*

We pretended to 'take off' in our own Year 1 aeroplanes and visited France, Mexico, India and Africa. We brought our teddies along for the ride and tried different food, learned to make music and dance.

I really like going in the 'aeroplane'. My bunny was scared but I was brave.

*Alice*
