

MEDIEVAL CHALLENGE DAY:

Every Butterfly travelled back through time to experience a day in the life of a child living in the Medieval times. Many knights, royalty and servants arrived to school ready for the day ahead. Each child made a loaf bread from scratch and very much enjoyed eating it later in the day! Throughout the day, the children weaved a placement, planted some bulbs and participated in some medieval games (including a competitive game of tug of war!)

"I loved making the bread but I preferred eating it!!!"

"We were so strong it broke the skipping ropes!!!"

Manor Farm:

We visited Manor Farm for the day to experience life during the Victorian times. This allowed the children to make comparisons with the Medieval period that they had learnt about earlier. The children had a go at using a mangle to rinse out their clothes, completed some household chores (such as emptying out the toilet!) and had a look at all of the food in the pantry. We had an English lesson at the Victorian school and realised how different schools were back then.

"The teachers were really strict back then!"

"My favourite part was getting to feed the animals."

Scooter Training Day:

To encourage safe and active trip to school, Butterflies were trained in road safety when riding their scooters. They scooted around the playground and learnt some new skills before being able to have a ride around the local area.

The children were shown how to safely cross roads as well as signs to look out for that a car might start moving.

"It is very important that we stay safe on our way to school so we don't get hurt."
